

David E. Cummings, MD, FASMBS is a Professor of Medicine in the Division of Metabolism, Endocrinology and Nutrition at the University of Washington, based at the UW Medicine Diabetes Institute and the V.A. Puget Sound Health Care System, where he is Director of the Weight Management Clinic and Program. He studies the endocrine regulation of appetite, body weight, and glucose homeostasis. A major current focus of his research is to elucidate hormonal/metabolic mechanisms mediating the profound effects of bariatric/metabolic surgery on diabetes and body weight, as well as to determine the role of surgery in diabetes care through randomized clinical trials. He also seeks to clarify the physiologic functions of the orexigenic hormone ghrelin.

Dr. Cummings graduated *summa cum laude* from Dartmouth College, receiving Highest Distinction in his major of Biochemistry. He obtained his medical degree from Harvard Medical School and the Massachusetts Institute of Technology. He is a recipient of the Presidential Early Career Award for Scientists and Engineers – the highest award conferred by the U.S. government to researchers in their early independent careers. It was given at the White House by the President and included seven years of additional research funding. Dr. Cummings has also received the 1996 Ethan Simms Young Investigator Award from The Obesity Society, the 2001 Philip J. Fialkow Scholar Award from the University of Washington, the 2006 Outstanding Investigator Award from the Western Society for Clinical Investigation, honorary membership in the American Society for Clinical Investigation since 2006, the Endocrine Society's 2009 Pfizer International Award, a 2010 honorary Pfizer Visiting Professorship, the 2016 Vivian Fonseca Scholar Award from the American Diabetes Association, the 2017 Honorary Lifetime Fellow appointment from the American Society for Metabolic & Bariatric Surgery (the first non-surgeon ever to receive this), an honorary professorship awarded in 2017 from Sri Aurobindo Medical College & Postgraduate Institute in India, and the 2018 Spitzer Award from Louisiana State University.
